### **KABATECK WRITES ABOUT INSURANCE COVERAGE POST-WILDFIRES**

On March 19, the Los Angeles Daily Journal published an article written by Brian Kabateck entitled "First Comes Fire, Then Comes Rain." The article explores the concept of whether all-risk fire insurance policies cover damages resulting from landslides caused by summer wildfires. Under some case law, the answer could be yes.

"It turns out that some homeowners may be able to find solace in their all-risk homeowner's insurance policies after all," according to Kabateck.
